

Create a long term plan with planned learning outcomes that specifically meet the next steps. Include resources, links, tools, learning intentions and success criteria. Add as much detail as you can – this will save you time!

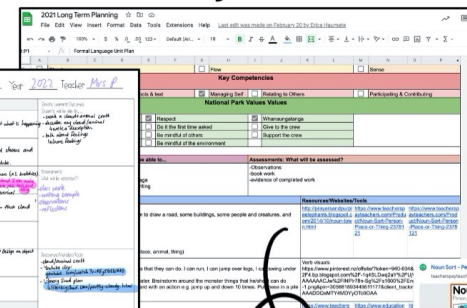

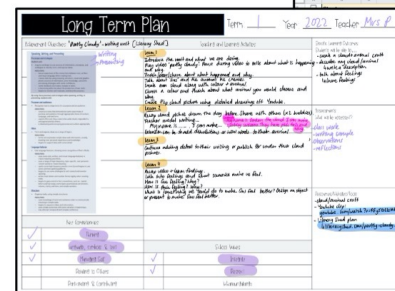

Use both formative, summative assessment and OTJ's to find next learning steps.

Use projected curriculum area maps
or planned out topics as a driver.

Map these against progressions, learning intentions, curriculum scopes, sequences that your team or school might follow
